Guide to Attitude to Risk			
C ::			1
Cautious	·	re very worried about short-term	
	•	lower return to help achieve yo	our goal of keeping your
	investment safe.		
	•	return higher than a very secure ir	
	account, your money will be	invested in assets that can rise and	d fall in value and so your
	money is at risk and you cou	ıld lose some of it.	
Moderately Cautious	As a moderately cautious in	vestor you are worried about shor	t-term losses.
	You are uncomfortable takir	ng risks with your investment, but	are you are willing to do
	so to help you achieve h	igher returns than could be ac	hieved in more secure
	investments such as a bank	or building society account.	
	You are willing to accept lov	wer returns to reduce risk to the v	value of your investment
	and can accept that your mo	oney will be invested in assets that	can rise and fall in value
	and so your money is at risk	and you could lose some of it.	
Moderate	As a moderate investor you	are concerned by short-term los	ses, but you understand
	that some risk is needed in	order to have the opportunity to	achieve better returns.
	You believe that the safety	of your investment and investm	nent returns are equally
	important.		
	You are able to leave your m	oney invested despite a fall in the	value of your investment
	in order to try and recover y	our losses.	

Moderately Adventurous	As a moderately adventurous investor your main aim is to increase the value of your investment and you are willing to accept a higher risk of losing your money in order to achieve this.  You are willing to leave your money invested despite a large fall in the value of your investment, in order to recover your losses and to achieve your long-term investment aims.
Adventurous	As an adventurous investor your aim is to achieve the highest possible returns over the long term. You are not concerned about short-term losses. You are most concerned with high returns and you can accept both large and frequent losses to the value of your investment over time in exchange for the opportunity of a higher return of the long term.

RISKS ASSOCIATED WITH TRADING THROUGH SCH ADVISORS		
(To be completed by all clients applying for an Execution Only Service or Advisory Service.)		
Please confirm you understand the following and which statements apply to yourself:		
All investments carry some risk; the value of shares and the income from them may go down as well as up and you may not		
get back the money you invested.		
Past performance is not a reliable indicator of future results and investment in shares carry the risk		
that all or some of the capital invested might be lost.		
SCH only looks at your Savings and Investments need and you should seek holiistic financial advice to ensure all your		
financial needs are addressed.		
You are prepared to accept the higher degree of risk associated with funds committed to high risk investments which are		
conducted with SCH in pursuit of higher potential returns.		
Investment in single shares should only be considered as suitable for high risk investors or as part of an overall balanced		
portfolio of investments.		
Investments that SCH offers may not be appropriate for those with a fixed income and people approaching retirement		
age. Yes No		
You realise that funds committed to high risk investments carry a substantial amount of risk to capital and are not suitable		
for investors who are seeking to preserve capital or earn income through investment? Yes No		
You are prepared to look at "speculative" investments such as such as Russell/Small Cap/ISDX shares which are conducted		
with SCH in pursuit of higher potential returns.		
You appreciate that "speculative" investments have wider spreads on price and are more illiquid and it may be difficult to		
sell the shares on a short-term basis.		
You are aware that investment in "speculative" shares such as AIM/Small Cap/ISDX carry the risk that some or all of the		
capital invested might be lost and that you should ensure that you have the financial capacity to bear the risk and only invest		
money you can afford to lose.		
You understand that there is an extra risk of losing money when shares are bought in smaller companies and investments that are not readily realisable, e.g. unquoted companies or smaller less liquid quoted companies, and you may have difficulty in selling them at a reasonable price and in some circumstances, it may be difficult to sell at any price.		
Yes No No		
YOUR RESPONSIBILITIES		
3. Your Responsibility to Check Your Trades		
For all trades executed you will receive a contract note. You can also view the details of all your transactions via		
your online portfolio. It is your responsibility to ensure that these details are correct. If you do identify an error		
then you must notify your investment advisor immediately.		
4. Valuations and Online Access		
At any time we will be able to send you, on request, an up to date account valuation or statement of your account		
at no charge. We would advise that you check your account regularly to review trades executed, valuation of open		
positions and general portfolio composition. It is your responsibility to monitor and address any issues that you		
might find.		
Can you confirm that you have understood your responsibilities and agree to them? Yes L No L
